# Adobe Acrobat DC
Organize Pages

Use Organize Pages in Acrobat DC to add, replace, extract, rotate, delete, and move pages in your PDF.

1. In Acrobat DC, select **Organize Pages** from the Tools center or pane.

2. Hover over a page to rotate the page clockwise or counter-clockwise or delete the page. To move a page, click and drag the page to the new location.

3. To create a new PDF from one or several pages, click **Extract** in the tool bar, select the page or pages, then click the **Extract** button. You can also **Insert** or **Replace** pages, and see other options by clicking on **More**.
4. To split one or more PDFs into multiple smaller PDFs, select the **Split** tool. When splitting a PDF, you can specify the split by the number of pages, file size, or top-level bookmarks.
